SUMMARY

I am a full-stack developer with two years of continuous learn specializing in building web applications. My expertise includes working with React.js for the frontend and Tailwind CSS for styling. On the backend, I utilize Node.js and Express to create efficient server-side logic and manage data with MongoDB. I am also proficient in designing and implementing RESTful APIs. Additionally, I use Next.js as a framework to enhance my applications, ensuring they are scalable and performant.
